

Zahara® Yellow Zinnia Zinnia 'Zahara Yellow'

Height: 16 inches

Spread: 14 inches

Spacing: 10 inches

Sunlight: O

Hardiness Zone: (annual)

Group/Class: Zahara Series

## **Description:**

This vigorous, well branched selection produces vibrant flowers that are very symmetrical; a marvelous addition to annual gardens and containers; highly mildew resistant

## **Ornamental Features**

Zahara Yellow Zinnia features bold yellow daisy flowers with gold eyes at the ends of the stems from mid spring to late summer. The flowers are excellent for cutting. Its pointy leaves remain green in color throughout the season.

## Landscape Attributes

Zahara Yellow Zinnia is an herbaceous annual with an upright spreading habit of growth. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

Zahara Yellow Zinnia is recommended for the following landscape applications;

- Mass Planting
- Rock/Alpine Gardens
- Border Edging
- General Garden Use
- Container Planting
- Hanging Baskets

## Planting & Growing

Zahara Yellow Zinnia will grow to be about 14 inches tall at maturity, with a spread of 14 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 10 inches apart. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.

Zahara Yellow Zinnia is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the larger thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
