Height: 10 inches

Spread: 3 feet

Spacing: 24 inches

Sunlight: ◐ ●

Hardiness Zone: (annual)

Other Names: Wishbone Flower

Group/Class: Summer Wave Series

Description:

A wonderful vigorous trailing series with excellent heat and shade tolerance; silver blooms with purple throats cascade from green, toothy foliage; perfect addition to patio containers, window boxes, baskets and beds; self-cleaning and low maintenance

Ornamental Features

Summer Wave Trailing Large Silver Torenia features showy silver tubular flowers with purple centers along the stems from late spring to mid fall. Its small serrated pointy leaves remain green in color throughout the season.

Landscape Attributes

Summer Wave Trailing Large Silver Torenia is an herbaceous annual with a trailing habit of growth, eventually spilling over the edges of hanging baskets and containers. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep, and should not require much pruning, except when necessary, such as to remove dieback. It is a good choice for attracting bees and hummingbirds to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Summer Wave Trailing Large Silver Torenia is recommended for the following landscape applications;

8424 Farley St.
Overland Park, KS 66212
913.642.6503

7036 Nieman
Shawnee, KS 66203
913.631.6121

830 W Liberty Dr.
Liberty, MO 64068

Planting & Growing

Summer Wave Trailing Large Silver Torenia will grow to be about 10 inches tall at maturity, with a spread of 3 feet. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 24 inches apart. Its foliage tends to remain low and dense right to the ground. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant does best in partial shade to shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Summer Wave Trailing Large Silver Torenia is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. Because of its trailing habit of growth, it is ideally suited for use as a 'spiller' in the 'spiller-thriller-filler' container combination; plant it near the edges where it can spill gracefully over the pot. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
