Height: 6 feet

Spread: 3 feet

Sunlight:

Hardiness Zone: 5b

Group/Class: Hybrid Tea Rose

**Description:**

Stunning color on a healthy vigorous bush; flawless double flowers make an impact as they open a clear yellow with ravishing crimson-red edges and white petals; sturdy long stems support huge blooms and deep green foliage; highly disease resistant as well

**Ornamental Features**

The Dream Come True Rose features showy lightly-scented double yellow flowers with white overtones and crimson edges at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color. The fruits are showy red hips displayed in late fall.

**Landscape Attributes**

The Dream Come True Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

The Dream Come True Rose is recommended for the following landscape applications;

8424 Farley St.
Overland Park, KS 66212
913.642.6503

7036 Nieman
Shawnee, KS 66203
913.631.6121

830 W Liberty Dr.
Liberty, MO 64068
816.781.0001

- Mass Planting
- Hedges/Screening
- General Garden Use

**Planting & Growing**

The Dream Come True Rose will grow to be about 6 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
